## 校长致辞

Welcome all of you to Geumgang Univeristy in the historic city of Nonsan. Geumgang University was founded as one of its kind by the Chuntae Order, one of Korea's Buddhist sects, with the mission of educating the future creative leaders with both true personhood and professional competence. Geumgang Univeristy aims to produce future entrepreneurs with global competence based on the Convergence Education System.

First of all, I will enhance the quality of education to the international standards. Also, I will promote industry-government-school cooperation and student startups and encourage education, research and entrepreneurship on regional specialization projects to improve the regional economic environment and the quality of life for those who live in the local community.

I will also try to make the campus more global both by attracting more international students and sending GGU students for studying and living overseas. I will also try to make communication within school flow more freely to make GGU as a better place to work and live. We live in the age of a great transition. Science and technology, in general, and information technology, in particular, is changing the landscape of education and research at institutions of higher education.

We, at GGU, must keep abreast with this trend. By moving the focus of eduction from professors to students, from principles to problems, and from lectures to discussions, GGU will train its students to have problem-finding and problem-solving abilities, promote applied research system for regional development, and encourage the students to take IT-based entrepreneurial classes so that they can get a job at IT-related businesses or start their own businesses. Let's go and make efforts together. Thank you.

真诚欢迎您来到金刚大学,这座位于历史悠久的论山市的大学！

本校是根据韩国佛教天台宗的重创理念，为实现以'塑造真挚人性，领会专业知识、培养创造型人才'为宗旨的办学理念而创立的唯一一所全国全新典范的大学。本校是指向'少数精英教育'的'小强'大学(虽小犹强的大学)，为实现培养全球创新融合型创业人才的教育目标，积极推进以下实践课题。

首先打造世界水平的教育环境，并强化连接产、官、学的应用研究力量，开展学生的创业活动，为地区社会经济发展及生活质量提升着力推进针对地区特性化的教育、研究、创业项目。其次鼓励海外留学，积极拓展海外招生，构建全球化教育，营造成员间沟通顺畅并得到共鸣的校园气氛。

如今我们已生活在瞬息万变的时代,科技与通信技术的发展要求大学教育及研究环境也随之而变。金刚大学也将立志于未来，建设崭新的教育、研究、创业体系。

在教育方面，将原来的'以教授为中心'改为'以学生为中心'，'以教学内容为中心'改为'以解决问题为中心'，'以讲解为中心'改为'以讨论为中心'。具体为，第一，教育方面提高发掘及解决核心问题的能力；第二，研究方面更新为有助于地区社会发展的应用研究体系；第三，创业方面推动开展IT融合创业项目，鼓励全校学生参与，使他们无论攻读哪个专业都能成功实现毕业后进入全球IT公司工作或个人创业的梦想，建设并巩固一整套培养创业人才的有效系统。

期待大家与我们金刚人共同面对即将展开的新挑战。

谢谢！
